Monterey, CA 93940

Dear Christina,

I wanted to thank you for your coordinating the Celebrating Wellness Day at Roosevelt School this year. The event was attended by our third grade students and teachers, and it was a huge hit! I have not heard teachers rave about a program such as they did for yours for a long time. At our final staff meeting the third grade teachers were encouraging all teachers on site to participate in the program next year.

The students were also very excited about the program. They told me about all of the different stations they participated in, and they were thankful to have had the opportunity to spend their morning in this event.

At Roosevelt School we are hopeful that the Celebrating Wellness Day will be available to all grade levels next year so that we can participate in this exciting, interesting event.

Sincerely,

Brinet Greenlee
Principal
