Dear Christina,

On behalf of D'Arrigo Bros. Co., of California, I want to say "Thank You" to you and your organization for providing Workplace Wellness Classes to our Receiving/Cooling/Shipping employees in May of 2007. What a tremendous success!!

All of the employees who participated in this year's program expressed to us how much they learned and how the information they received helped them make better choices and add more health to their lives. We are grateful to HELP and the United Way for providing such valuable information to our company and our employees. I hope we expand the programs to other departments in our organization.

Sincerely,

Margaret D'Arrigo-Martin
Executive Vice President
